

EUI OCRES CD LAUNCH

SUBJECT: EUI TEST PLANS ADDED AND LICENSING INTRODUCED

1. INTRODUCTION

The arrival of Common Rail pump repair within the Delphi network necessitated certain changes to the installation and functionality of the OCRES software.

The previous OCRES CD (DDRX101 issue 4) contained new features such as multi-language installation, added security through the introduction of licensing, different levels of access and new test plans for Common Rail pumps

The new OCRES CD (DDRX101 issue 5) contains all of the above features plus the first ever EUI test plans to coincide with the launch of Delphi's repair programme on the Volvo A-Type EUI range.

2. MULTI-LANGUAGE INSTALLATION

The installation of OCRES can be carried out in six different languages:

English, French, German, Italian, Spanish & Portuguese

The programme will run on all standard operating systems (Windows 95, 98, Millennium, 2000, NT & XP).

3. LICENSING

At the end of the installation procedure, you will be asked to enter a license number. Please contact the Delphi Service Operations Department on +44 (0)1926 472957 in order to receive this license number. You will be asked for the request code generated by OCRES installation and will then be told your license number, which you must enter in order to access the programme.

4. LEVELS OF ACCESS

Your Delphi network classification will determine the test programmes that you can access on OCRES (eg. only Common Rail service centres will be able to access Common Rail test plans). All queries surrounding network classification should be directed to the Service Operations department.

The different levels of access are:

- Level 1 - DPCN only
- Level 2 - DPCN & EPIC
- Level 3 - DPCN, EPIC & Common Rail
- Level 4 - DPCN, EPIC, Common Rail & EUI

5. TEST PROGRAMMES

Issue 5 of OCRES contains all of the DPCN, EPIC and Common Rail test plans from issue 4. In addition, the following Electronic Unit Injectors are covered:

BE4B01001	BE4B01002	BE4B01003
BE4B01004	BE4B10001	BE4B10002
BE4B10101	BE4B10102	BE4B12001
BE4B12003	BE4B12004	BE4B12005

6. PRICING

Until now, the OCRES software has been issued free-of-charge to those customers that have invested in an ETK. For those customers who will only access the DPCN & EPIC test plans, the software will continue to be provided at no charge.

However, an annual license fee for the Common Rail and EUI test information on OCRES is being introduced with immediate effect with the first licence year running until January 31st, 2006. The price detail is shown below with the charges to be applied pro rata:

Overseas Nett Price

CR only annual subscription

CR & EUI annual subscription

7. TO ORDER

All customers who wish to receive the latest OCRES CD should complete the attached form indicating the access level (1,2,3 or 4) that they require. As stated previously only levels 3 and 4 are chargeable.

Upon receipt of the CD simply follow the installation instructions included.

OCRES SUBSCRIBER FORM

Company Name:	
Account No:	
Purchase Order No.	
Contact:	
Country:	
Access Level	
Tel No:	
Fax No:
