

New Common Rail Application

SUBJECT: LAUNCH OF DELPHI COMMON RAIL SYSTEM ON TATA INDICA / INDIGO / MARINA EURO IV 1.4L

In addition to the already extensive range of Delphi equipped Common Rail applications, Delphi are pleased to announce the launch of its Common Rail Fuel Injection system on the TATA Motors, Indica / Indigo / Marina Euro IV 1.4L application.

The vehicle is due to be launched initially in Europe, South Africa, and Turkey, followed by a launch in India.

Please read Advance Information note DT5208 (EN) in conjunction with this mailing.

Part numbers and pricing for system components are detailed in the table below.
